IN MEMORIAM

Of dear mother, SUSAN TRUNNELL, who died 2 years ago yesterday, the 28th day of June, 1918.

My heart, deep in sorrow, returns to this day,
As memory recalls my mother, I have no mother now.
How that hour comes back, with each day,
A keener sense of loss to me, no tongue can tell.
And when on earth I breathe no more,
I'll meet you on the heavenly shore.

Your lonesome daughter, Annie.

IN MEMORIAM

In sad but loving remembrance of my dear father, GEORGE W. FALLANT, who departed this life so suddenly one year ago today, June 29, 1920.

Had I been with you to the last,
And held your dying hand,
And heard the last sigh from your heart,
I might not feel so bad.
I did not know the pain you bore,
I did not see you die,
I only know you went away,
And did not say good by.

By his loving daughter, Minnie.

SUNDAY SCHOOL PICNIC LABOR DAY

To be Staged by Ladies' Auxiliary of the Y. M. C. A.

FIX DETAILS JULY 26

Affair Will Mark Culmination of Attendance Contest In Sunday Schools —Expect 5,000 to Attend.

The Ladies' Auxiliary of the Young Men's Christian Association will stage the big Sunday School picnic Labor Day, September 6. This was decided at the regular monthly meeting of the Auxiliary held at the Westminster Building last night.

Mrs. Harry B. Caton, president of the Auxiliary, declares that the picnic will be the largest Sunday School picnic ever attempted in the state. She admits that numerous denominational picnics of varying size have frequently attracted attention over the state, but calls attention to the fact that every Sunday School in the city is committed to the contest for attendance now being conducted by the Y. M. C. A., and states that this gguarantees an attendance never before realized.

Mrs. Caton appointed Miss Cora L. Cochran and her committee to have complete charge of the dinner and refreshments arrangements. It is not improbable that this committee will have to provide smooth feeding facilities for more than five thousand people, but it was the unanimous opinion that the chairman of the committee was amply equal to the task.

The Auxiliary asked that the board of directors of the Y. M. C. A., undertake the task of providing music, transportation and whatever construction might be necessary to insure the best time the youngsters of Alexandria ever had.

Miss Corrinne Reardon and Miss Eddie Dickert were appointed associate chairmen of the entertainment committee and they will doubtless draft associates from the many Sunday Schools engaged in the summer attendance contest. Miss Helen N. Cummings was appointed chairman of the decoration committee and it is easily assured that the aesthetic side of the holiday will be well taken care of.

The auxiliary will hold its next regular monthly meeting the evening of July 26, at which final details of the picnic will be completed.

MONEY FOUND

Does it pay to advertise?

Well, ask a young woman who advertised in the lost column of the Gazette Saturday. As a result of a small lost ad she is $22 better off

The young woman Saturday dropped an envelope containing the foregoing amount on King street near St. Asaph street.

Her lost ad was seen by the finder, who is employed as a laborer at the plant of the Virginia Shipbuilding Corporation. He brought the money to the Gazette Office yesterday afternoon in less than an hour afterward it was restored to its owner. The finder stated he did not desire his name used, being too modest for publicity, but simply desired the money restored to its lawful owner.

VIRGINIA TO GIVE GLASS ITS SUPPORT

Delegates to Convention in San Francisco Map Out Their Program

W. J. BRYAN'S PLANKS

Should They Fail, Must be Brought in Convention Endorsed by Minority Report.

San Francisco, Cal., June 29.—Virginia will cast her vote for Senator Carter Glass for President and she will not have any second choice. The idea of such a thing is not considered These Virginians are here for a purpose—to name Senator Glass for President and they are on the job, Congressman H. D. Flood, of Appomattox, who was made chairman of the delegation at Colorado Springs, when there was a lay-off for a few hours made this statement. The delegation reached here Saturday night, and no sooner had the men landed than they began to circulate and talk Senator Glass The other states are looking on with approving glances and Senator Glass is being discussed in many places. M. R. Morgan, of Eagle Rock, is secretary of the Virginia delegation.

These Virginians are loyal to President Wilson and they are solid against the admission of Senator James A. Reed, of Missouri, to the convention, especially as he had been rejected by the state convention, by the committee on credentials and now seeks to force the fighting by going to the national convention Senator Reed is against anything President Wilson demands or suggests, and the Virginians are not disposed to waste any time on him.

Another thing on which the delegation will present a solid front is the liquor issue. The congress of the United States has finally passed on that proposition, and the seal of the supreme court of the United States has been added, and representing the sentiment of the Old Dominion, the delegates from that state are to uphold the expression of the will of the people.

Members of the Virginia delegation the rear guard of which did not reach the convention city until after 8 o'clock Sunday night, caucused at 10 o'clock yesterday morning and ratified the organization slate made-up while the Virginians were at Colorado Springs. The organization is as follows:

Chairman—Representative Hal D. Flood.

Secretary—M. R. Morgan, Eagle-rock.

Member Resolution Committee—Senator Carter Glass.

Member Credentials Committee—Hiram M. Smith, Richmond.

Member Organization Committee—E. Frank Storey, Franklin.

Member Rules Committee—George C. Perry, Bristol.

Member of Committee to Notify the Nominee for President—E. I. Ford Newport News.

Member of Committee to Notify the Nominee for Vice-President—C. S. Bennett.

Honorary Vice-President—J. P. M. Joyce, Norfolk county.

Honorary Secretary—P. B. Halligan, Carson.

Any planks which William J. Bryan may desire to have inserted in the platform and which fail to pass approval of the resolutions committee will, therefore, have to be brought into the convention with the indorsement of only a minority report.

FAVOR SPARKLERS

Residents Think Prohibition Would Take Joy Out of Fourth

A number of prominent women of the city are urging the authorities to overlook the use of sparklers in the Fourth of July celebration. It is pointed out by those favoring this that they are practically harmless despite the opinion of others to the contrary. One woman stated today to a representative of The Gazette that she desired the children to use them in her yard but did not want to encourage the children to break any law which might prohibit their use. For this reason she expressed hope that Alexandria the authorities would overlook their use. She pointed out that the sparklers are permitted in practically every other city and to prohibit their use would be putting Alexandria in a class by itself. These devices it is stated have been used indoors without any bad effect.

WILSON FORCES IN COMPLETE CONTROL

President, Through Agents, Controls Convention Proceedings

CUMMINGS' SPEECH

Speaker Flays Enemies of League of Nations, Charging Them With Conspiracy, Inspired by Jealousy.

San Francisco, June 29.—Those who attended the first session of the convention, which opened at noon yesterday, witnessed a great demonstration for Woodrow Wilson and a thorough exemplification of the fact that the Wilson forces are in complete control.

The steam roller, which operated at Chicago at the command of Boies Penrose, was in evidence here with the President through his agents in the convention directing the proceedings. The insurgents appear to be in hopeless minority.

Making the peace treaty and the league of nations the dominant issue of the coming presidential campaign, Homer Cummings, as temporary chairman of the convention, yesterday delivered the keynote speech. Cummings devoted half of his time to a discussion of the treaty and its reception by the senate. Cummings praised Democratic achievements of the last eight years and uttered ringing denunciation of the Republican party. Speaking of the league of nations plank in the Republican platform, Cummings said: "It praises without discrimination all the Republican senators who participated in its defeat. Its word of benediction fall alike upon the irreconcilables, the Lodge reservationists, the mild reservationists and those who proposed a separate peace with Germany. It is enough to know that the 'Old Guard sold the honor of America for the privilege of nominating a reactionary for President."

After naming the nations that have ratified the peace treaty Mr. Cummings said: "What nations stand outside? Revolutionary Mexico, Bolsheviki Russia, unspeakable Turkey and —the United States of America." He accused the Republicans in the senate of conspiracy to defeat the treaty because they were "moved by a strange and inexplicable jealousy of the President."

Speaking of the sacrifices President Wilson made for the treaty, he said: "Congress was in session for months while the President lay in the White House struggling with a terrifying illness and, at times, close to the point of death. The President made every sacrifice for the cause of peace" Mr Cummings declared, "while at home there was widespread propaganda making it imperative that he take up in his own country a struggle for the preservation of that which had been won at incalculable cost. Following the superhuman labors of seven years of unexampled service, this meant the wreck of his health—and worse than physical sickness, the sickness of heart which comes from the knowledge that political adversaries are savagely destroying the hope of settled peace. This was the affliction—this the crucifixion.

DEFUNCT POLITICAL PARTIES

A number of political organizations have waxed and waned within the recollection of many still living The Anti-Mason Party caused some excitement, especially in New York State, in the remote past. It survived but a short time.

In the early fifties of the last century the Knownothing Party looked as though it was destined to sweep the country. It, too, was short-lived. The Constitutional Union Party had its day, and expired about the time the civil war distracted the nation.

The Spokane Spokesman-Review in this connection says:

Since the Republican party came into being, 64 years ago 14 attempts have been made to found other new parties and none of them has elected a President. The closest approach was by the Progressive party in 1912, when Roosevelt received 4,119,507 votes. The nexxt consi lera'le splash was made by the Populists in 1892, when James B. Weaver polled 1,041,028 votes.

"In 1872 a split in the Republican party led to the nomination of Horace Greeley by the "Liberal Republicans" and the Democratic party, but Grant was re-elected by a majority of more than 700,000. Four years later, in 1876, the Greenback party was organized and ran Peter Cooper for President. It was the predecessor of the Populist movement. It ran Weaver in 1880 and Ben Butler in 1884; slumbered in 1888 and came to life again in 1892 as the People's party, with Weaver its nominee for President.

"In 1876 the prohibition party came into the field, casting 9,522 votes for Green Clay Smith, of Kentucky. It has had a presidential candidate in every contest since then. The Socialist party also has been a frequent contender, and at one time and another we have had Socialist labor nominees, Social Democratic candidates, American party candidates, union labor, united labor gold Democrats and independent candidates. And the result has been the same in every instance—defeat and the election of a Republican or a Democratic President."

SIGNS OF THE TIMES

We are not alarmists, but there are many things in evidence in the world today which should cause all law-abiding persons to stop, look and listen. The great mass of humanity seem bent upon insubordination. Labor leaders are no longer able to control unions. The latter are laws unto themselves and they strike ad libitum, bringing distress upon those dependent upon the performance of their duties. Labor convulsions at one time came periodically. They are now with us alway—come to stay.

While such distressing conditions are upon us, the Jacobins of the present day are preaching violence and ready to demand that which belongs to others, while certain elements would eliminate the Creator from the universe and close every church in the land. They openly avow these principles, and the time may come when men will announce their faith at the risk of their lives.

A dozen years ago the world was lulled to sleep by the dream that wars were a thing of the past. Arbitration, we were told, had superseded the sword in the settlement of international disputes. We have recently had a rude awakening and made to realize that the sword is still in use.

Scenes in the Colisseum at Rome where early Christians were torn to pieces by wild beasts attract but little attention at this time, it being assumed that persecution, like war, is a thing of the past.

But be it remembered that during the past year or two priests have been shot down upon altars in Russia, and Bolshevists in the United States are bold in proclaiming their hostility to all religions. And all this at a time when "iniquity abounds and the love of many is waxing cold."

We have recently been reading one of the many histories of the French Revolution. The author is an American, and he has the following to say concerning the "God of Reason" which the French enthroned during the days of blood:

"Let atheism rule over the great American republic; let the Christian religion be abolished; the churches closed, as they soon were in France; let our children be driven from the Sabbath school, and secular lyceums, and desecrating halls work the destruction of religious worship; let a revolt against accumulated wealth, or the abuses of money power, be led by men who despise God and reject the Bible, and the same anarchy and bloodshed will mark the American republic of the future that has stained with its horrors the French republic of the past."

Prominent politicians of our day do much towards bringing on such conditions when they talk of "the predatory powers" and "moneyed interests" before unthinking men who have nothing to lose in a revolution, but all to gain.

Certain men have ever sown the wind; they will reap the whirl wind.

"FOR THE COMMON GOOD"

Virginia has brought into existence an organization known as "The Virginia Association for the Common Good." The very name immediately commands attention for no organization could have selected such a name without having for its purpose the doing of the things which make for the common good of all classes and all parts of the State. This organization, the objects of which are given in this issue by Mr. William T. Dabney, the secretary, should be an inspiration to the thinking business people, and that practically includes everybody, for everybody is a business man unless he is a loafer, and should stimulate people everywhere to similar good work.

The organization in Virginia has spread to every district in the State and from Virginia it is passing on into the more southerly States where similar organizations are now being planned.

The object of this association is to thoroughly investigate through a strong non-partisan working body everything which bears on the welfare of the State and when after thorough study the situation is understood, to present the matter to its members and to co-operate in such legislative work as will make for the best interests of the whole community.

The organization is remarkable for its name and the work it is doing and for the character of men who compose it sofficial body, fully justifying, we think, the statement by Mr. Dabney that it has the most influential directorate ever formed in Virginia. We commend the story of this organization and its work to every lover of his country and to every man who is interested in the protection of his own community and of the whole nation.—Maufacturers' Record.

Dublin, June 29.—British soldiers at Fermony raided the town, wrecking shops and doing considerable damage in retaliation for the capture of Brigadier-General Lucas by the Sinn Feiners, according to advices received here.

The situation at Bantry, where there has been considerable disorder recently, was quiet today. Sinn Fein volunteers patrolled the streets of the town all night.

The police barracks at Cross Haven, near Cork, were burned last night. The railway situation here continued unimproved today. Many more men were dismissed on account of refusal to move trains carrying armed troops or police.

Railway men met at Cork at midnight and decided to call upon all motormen and conductors of tramcars to refuse to carry soldiers or ammunition.

Three hundred armed men attacked the barracks at Boris Sokone, burning the building. The garrison of seven policemen defended the barracks, returning the fire of the attackers The police managed to hold the barracks three hours, after which they escaped.

KILLS FACTORY HEADS

President and Superintendent of Pottstown Plant Die in Explosion

Pottstown, Pa., June 29.—William C. Walsh, 33 years old, president and general manager of the Vulcweld Tire and Rubber Company, and James A. Manoy 32, general superintendent, were killed early yesterday by the explosion of a dryer. Frank Walsh, the president's brother, lost an arm and suffered other injuries which may prove fatal.

BOY KILLED BY PITCHFORK

Preston W. Oursler Sucumbs After Unusual Accident

Baltimore, June 29.—Preston Wilson Oursler, 6-year-old son of Bernard Oursler, a farmer of near Hampstead, Baltimore county, died late Sunday night at University Hospital as the result of an unusual accident last Saturday afternoon the child was riding on the top of a hay wagon on his father's farm, when part of the hay fell from the wagon, throwing the boy to the ground. A pitchfork, which had been used in loading the hay on the wagon, dropped from the hay pile and stuck the child through the back, pinning him to the ground.

Young Oursler's screams attracted farmhands, who pried the fork from the boy's body. In an effort to save his life he was rushed to the hospital in an automobile and an operation was performed but he failed to rally.

The Corby Patented Gluten-developing Dough-Mixers—of which the Messrs. Corby are the inventors and sole users. : :

The Specially Designed Corby Dough Mixers

----and What They Accomplish----

The more gluten that can be developed in the dough, the more nourishment there is in the bread. It is the gluten that makes muscle and sinew and gives bread its true value as a food.

Gluten does not exist in wheat as gluten—but is the result of natural chemical action—in the development of which the hand-kneading of the housewife accomplished little; the usual bakery process not much more—permitting a lot of valuable nutrient to go to waste.

To overcome this we designed and invented the giant dough-mixers, which the United States Patent Office recognized as the means to the accomplishment of a most valuable and advanced process granting us letters patent on this device—a rare recognition, but which attests to its importance; insuring as it does, a full 100 per cent gluten strength in every dough.

That is why.

Corby Bread

is 100 Per Cent nutritious, as well as 100 Per Cent pure.

DIE IN FLAMES

Trapped on Upper Floor of Building at Ellwood, Pa.

Ellwood City, Pa., June 28.—Seven persons were burned to death in a fire which destroyed the Kraus block in Lawrence avenue here early yesterday. Damage to the property is estimated at $35,000.

The origin of the fire is unknown. The dead are a mother, Mrs. James Carlin, and her six children, ranging in age from 11 years to 5 weeks. The family occupied the third floor of the building and so rapidly did the fire spread that all escape for them was cut off.

Mrs. J. C. Conners, who occupied the second floor and who was the only other resident of the building, escaped by leaping from a window. She was uninjured. The lower floor was occupied by a business establishment, which is a loss.

LANDMARK TO GO

Richmond, Va., June 28.—Another of the landmarks of the city is soon to disappear—the old Ballard House Charles Dickens and wife were entertained there in 1842, and in 1860 the establishment furnished entertainment for the then Prince of Wales, later King Edward VII, President Rutherford B. Hayes was a guest in 1877. The Marquis of Lorne came in 1883.

BOLSHEVIKI LOSE 2,000

Poles Foil Gen. Ruudenny at Jemilczyn—Fighting Increases Along Entire Front

Warsaw, June 28.—Fierce fighting is proceeding along the entire Polish front and increasing in intensity, according to yesterday's official communication, The bolsheviki, profiting by numerical superiority and great masses of cavalry are seeking decisive results at all costs, it is stated. The heavy fighting for several days in the region of Lake Messuszol ended with the defeat of the bolsheviki, who were dislodged from their positions.

According to the communication the enemy"s resistance has been broken all along the line between the Pripet and the Ryzerayc-Kalenkowicz Railroad, where the bolsheviki lost 20,000 men killed. The Poles took quantities of imporant war material. The bolshevik Gen. Budenny's army has been prevented from developing its success in occupying Jemilczyn.

Ukrainia forces have broken the enemy's front near Bielany, occupying Izernoijowka and Teklowka. A number of minor success are reported.

U. VA. SUMMER SCHOOL

Through the co-operation of the University of Virginia, the Potomac Division of the American Red Cross is offering courses for social workers at the summer school of the University in Charlottesville, Va., from June 21st to September 3rd. The subjects in Social Science include Social Psychology, Rural Problems, Community Organization and Case Work. The work in rural committees will be featured under Thomas L. Harris of Miami University and (Miss Eugenia Bryant, of the Bureau of Educational Service of the Potomac Division who will conduct for the Red Cross the family case work classes and supervise all the field work under the courses in Case Work and Community Organization.

One of the most interesting phases of the courses is the extensive field work. The summer school will work in conjunction with the Albemarle County Chapter of the Red Cross, the State Department of Health, the Medical School and the clinics. This will be especially beneficia to rural social workers and Home Service secretaries in rural communities.

The course in social psychology includes an analysis of social relations from the sociological point of view; a statement of practical problems and terms of group life. Rural problems covers the study of attitudes and problems in the open country, with special reference to those of Virginia; attention will be given to public health, education, recreation and economic relations. The course in Case Work teaches the methods of dealing with problems of individuals and families, and Community Organizations gives a practical course in the methods of organizing and utiliizing the social resources in the small community. The field work for these last two courses will be in cooperation with the local agencies.

Admission to the summer school is through the regular University channels, which means that applicants must meet the entrance requirements of the University they wish to attend. Full university credid will be given.

In offering these courses no attempt is being made to condense the training for social workers into three months. The courses are regarded as supplementary to academic and practical work previously done and preparatory to that which may follow.

DODSON SOUNDS CALOMEL' DOOM

The 'Liver Tone' Man Warns Folks Against the Sickening, Salivating Drug

Ugh! Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonght and tomorrow you lose a day.

Calomel is mercury! When it comes into contact with sour bile, it crashes into it, breaking it up. Then is when you feel that awful nausea and cramping. If you are sluggish, if liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone tonight.

Here's my guarantee—Go to any drug store and get a bottle of Dodson's Liver Tone for a few cents. Take a spoonful and if it doesn't straighten you right up and make you feel fine and vigorous, go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it can not saivate or make you sick.

TEN KILLED IN SMASH

Engine Crashes Into Motor Truck —Wreck Halts Rescue Train

Evansville, Ind., June 28.—Ten persons were killed and nine others injured, three fatally, when a passenger train struck a motor truck yesterday morning, near Huntingburg, loaded with picknickers.

The driver of the truck saw the approach of the train but could not stop the truck in time to avoid the crash. He and his wife jumped and escaped death.

The truck was the first of three containing picknickers on their way to a Woodmen celebration.

A relief train was halted by a freight wreck at Oakland City, making it necessary to bring the wounded to Evansville. People in the vicinity of the wreck opened their homes and gave first aid to the injured.

EXPELLED UNION MAN

Wilmington Machinist Who Bolted Labor Delegate at Primary to Fight

Wilmington, Del., June 29.—As soon as he receives official notice that he has been expelled from the Machinists' Union for voting for William Coyne, vice president of the duPont Powder Company, for delegate to the National Democratic Convention, against Daniel P Buckley, a member of the union and former saloonkeeper, who was the labor candidate, Martin F Mealey will make an appeal to the international body.

The action of the union has aroused considerable ill feeling and it is expected there will be a lively fight both among the labor people and the members of the Democratic Party over the affair. It is declared that some of the members of the union do not like the idea of the organization dictating their votes to them and it is generally believed that union labor has received a hard blow from the action of the Machinists' Union. In the meantime Mealey is full of fight and has confidence that the national body will sustain him in his right to vote as he pleases.

Grafton (W. Va.) Miner Gives Himself up After Shooting

Grafton, W. Va., June 29.—Sam Marena, a miner of Wendell, this county, drove in an automobile to the sheriff's office here Saturday, and gave himself up for killing Frank Folio, a boarder at his home. The men are miners. It is alleged that Marena, after shooting Folio down as he passed the doorway of a neighboring house in which Marena spent the night, dragged the body to a pigsty and threw it to the hogs, which were tearing off the clothing when it was rescued.

Mareno said he shot Folio because he had destroyed the happiness of his home and had not only refused to leave the Mareno home, where he was a boarder, but defied Marena to put him out. Mrs. Marena, the mother of six children, in her testimony before the coroner's jury, said her husband at times was not very good to her and intimated that it did not matter much with which man she lived. Marena spent the night at a house two doors from his home, leaving Folio at his own house and it was from the doorway of the neighbor's house that he is alleged to have shot.

TO OUR COAL TRADE

Under present conditions our receipts of domestic coal are limited and prices are constantly changing.

We will be glad to enter orders; deliver the coal as promptly as we can secure it, and bill it to our customers on the basis of cost to us plus our usual gross margin, and this will have to be our policy at this time as everything indicates great uncertainty in the coal trade.

Our customers can be assured that we will do everything possible to keep the price as low as we are able to, consistent with quality, weight and service, and we shall be glad to have you entrust the business to us on this basis.

This also applies to any orders we already have from our trade.

McADOO WILL NOT REJECT

Former Secretary of Treasury is Receptive Candidate for Nomination

San Francisco, June 28.—Announcement here last night that William G. McAdoo would not reject the Democratic presidential nomination overturned the whole situation as to candidates before the convention, which now is to have its "big three."

National Committeeman Love, of Texas, regarded as McAdoo's spokesman, without giving specifications publicly, states he had assurances that Mr. McAdoo would accept if nominated. He declined to amplify his statement.

PRISONERS DROWN

Stockholm, June 29.—Two thousand repatriated prisoners from soviet Russia, including Germans, Austrians and English troops, were drowned when an 1,800 ton bolshevik vessel went down in the River Neva, according to a Moscow dispatch. No details were given and the dispatch made no comment on the drownings.
